

### I. IDENTIFICATION

Product identification used on label
Product Name:
Product Identifier:
Recommended Use of the
Chemical and restrictions on use:

MAXI-BATTERY PROFESSIONAL CINNAMON Battery, Still, Electric Liquid Odor Counteractant

Company:	AIR-SCENT INT'L
	RIDC INDUSTRIAL PARK
	290-298 ALPHA DRIVE
	PITTSBURGH, PA 15238
Emergency Phone	EMERGENCY PHONE: (800) 535-5053
Number:	INFORMATION PHONE: 800-247-0770
	INFORMATION FAX: 412-252-1010
	IF SWALLOWED CALL YOUR POISON
	CONTROL CENTER AT 1-800-222-1222

### II. HAZARD(S) IDENTIFICATION

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Classification:	Skin Corrosion/Irritation Category 2; Hazardous to the aquatic environment - Acute Category 3; Hazardous to the aquatic environment - Chronic Category 3; Flammable Liquid Category 4		
GHS Signal Word:	Warning		
GHS Hazard	Cumbustible Liquid; May cause skin and serious eye irritation; Keep away from open flames Avoid release to the environment.		
<b>GHS Precautions:</b>			
Safety Precautions:	Keep away from open flames. No smoking. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves, eye protection.		
First Aid Measures:	IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.		
Storage:	Store in a well-ventilated place. Keep cool.		

### PROFESSIONAL CINNAMON (NEW)

**Disposal:** Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

#### **III. COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical Name	CAS #	%
Hydrotreated light distillate (Petroleum)	64742-47-8	60 - 99
2-Propenal, 3-phenyl-	104-55-2	3 - 7
Cyclohexene, 1-methyl-4-(1-methylethenyl)-, (R)-	5989-27-5	0.5 - 1.5
2H-1-Benzopyran-2-one	91-64-5	0.1 - 1

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

IV. FIRST-AID MEASURES			
Inhalation:	Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately.		
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.		
Skin Contact:		soap and water. Remove contaminated clothing and launder. Get ention if irritation develops or persists.	
Ingestion:	Do not induce vomiting and seek medical attention immediately. Drink two glasses of water or milk to dilute. Provide medical care provider with this MSDS. Induce vomiting as a last measure. Induced vomiting may lead to aspiration of the material into the lungs potentially causing chemical pneumonitis.		
Most important			
symptoms and effects -	No Data Ava	ailable	
acute			
Most important			
symptoms and effects -	No Data Available		
chronic			
Notes to Doctor:	No addition	al first aid information available	
V. FIRE FIGHTING MEASURES	S		
Flammability Summary:		Combustible	
Extinguishing Media:		Use alcohol resistant foam, carbon dioxide, dry chemical, or water	
		spray when fighting fires. Water or foam may cause frothing if liquid	
		is burning but it still may be a useful extinguishing agent if carefully	
		applied to the fire. Do not direct a water stream directly into the hot	
		burning liquid.	
Extinguishing Media advise	-	No Data Available	
Fire and/or Explosion Hazards:		Vapors may be ignited by sparks, flames or other sources of ignition	
		if material is above the flash point giving rise to a fire (Class B).	
		Vapors are heavier than air and may travel to a source of ignition and	
		flash back. Combustible Liquid. Can form explosive mixtures at	
		temperatures at or above the flash point.	
DDODDOULL CDDLAN			

Fire Fighting Methods and Protection: Hazardous Combustion Products:	Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that may lead to injury or death. Empty containers retain product residue (liquid and/or vapor). Vapor can ignite potentially causing an explosion. Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Explosive vapor could form. Carbon dioxide, Carbon monoxide, Carbon Oxides
VI. ACCIDENTAL RELEASE MEASURES	
Personal Precautions and Equipment:	No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS
Methods for Clean-up:	No special spill clean-up considerations. Collect and discard in regular trash.
VII. HANDLING AND STORAGE	
Handling Technical Measures and Precau	tions: Mildly irritating material. Avoid unnecessary exposure. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing Ground and bond containers when transferring material "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. Use with adequate ventilation Follow all MSDS/label precautions even after container is emptied because it may retain product residues Use spark-proof tools and explosion-proof equipment
Storage Technical Measures and Conditio Materials to Avoid/Chemical Incompatibi	<ul> <li>Store in a cool dry place. Isolate from incompatible materials.</li> <li>Keep container closed when not in use Store in a cool dry place Keep away from heat, sparks, and flame Limit quantity of material stored. Do not store in direct sunlight Store in a cool place in original container and protect from sunlight Do not store near combustible materials</li> <li>Strong oxidizing agents Amines Strong acids Caustics (bases)</li> </ul>
	Strong bases

#### **VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Engineering Measures:Local exhaust ventilation or other engineering controls are normally required when<br/>handling or using this product to avoid overexposure. Engineering controls must be<br/>designed to meet the OSHA chemical specific standard in 29 CFR 1910. Ventilation is<br/>required to maintain operator exposure below published exposure limits. Use process<br/>enclosures, local exhaust ventilation, or other engineering controls to control

PROFESSIONAL CINNAMON (NEW)

Page 3 of 7

airborne levels below recommended exposure limits Explosion proof exhaust ventilation should be used. Facilities storing or using this material should be equipped with an eyewash and safety shower.

Respiratory protection will be required when handling this product. Use respirators **Respiratory Protection:** only if ventilation cannot be used to eliminate symptoms or reduce the exposure to below acceptable levels. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Wear a NIOSH approved respirator if any exposure is possible. Respiratory protection may be required in addition to ventilation depending upon conditions of use. **Eye Protection:** Wear chemically resistant safety glasses with side shields when handling this product. Do not wear contact lenses. Wear goggles and a Face shield **Skin Protection:** Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield Gloves: No information available Handling Instructions: As with all chemicals, good industrial hygiene practices should be followed when

handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing Ground and bond containers when transferring material "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. Use with adequate ventilation Follow all MSDS/label precautions even after container is emptied because it may retain product residues Use spark-proof tools and explosion-proof equipment

#### **IX. PHYSICAL AND CHEMICAL PROPERTIES**

Physical State:	Liquid	
Color:	Clear	
Odor:	Mild Comparable to Standard	
Odor Threshold:	ND	
pH:	Not Available	
Initial Boiling Point:	478 º F	
Flash Point:	170 º F	
Evaporation Rate:	Not Available	
Flammability (Solid, Gas):	No Data Available	
Upper Flammable/Explosive Limit:	6.0	
	3.0	
Lower Flammable/Explosive Limit:	1.1	
Vapor Density:	>1	
Relative Density:	1	
Solubility in Water:	Soluble in water- No	
Octanol/Water Partition Coefficient:	= 2.22 at 18 degree C	
	-	

PROFESSIONAL CINNAMON (NEW)

Decomposition Temperature:	246
Volatiles, % by weight:	0.64
Volatiles, % by weight:	0.64
Bulk Density:	7.511

### X. STABILITY AND REACTIVITY

Reactivity:	No Data Available
Chemical Stability:	Stable under normal conditions.
Possibility of Hazardous Reactions:	No Data Available
Conditions to Avoid:	Temperatures above flash point in combination with sparks, open flames, or other sources of ignition. Contamination Elevated temperatures Contact with air. Visible light
Materials to Avoid/Chemical Incompatibility:	Strong oxidizing agents Amines Strong acids Caustics (bases) Strong bases
Hazardous Decomposition Products:	Carbon dioxide Carbon monoxide Carbon Oxides

### **XI. TOXICOLOGICAL INFORMATION**

<b>Routes of Entry:</b>	Skin contact, Eye contact, Inhalation	
Most Important	No Data Available	
Symptoms:		
Target Organs Poter	ntially Affected by Exposure:	Eyes, Skin, Respiratory Tract
<b>Chemical Interaction</b>	ns That Change Toxicity:	None Known
Medical Conditions Aggravated by Exposure:		Eye disease, Skin disease including eczema and sensitization, Respiratory
		disease including asthma and bronchitis

### Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation:	Can cause respiratory irritation.
Skin Contact:	Can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage.
Eye Contact:	Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue.
Ingestion Irritation:	Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause chemical pneumonitis.
Ingestion Toxicity:	Harmful if swallowed.
Long-Term (Chronic) Health E	:ffects:
Carcinogenicity:	None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA.
Reproductive toxicity:	No data available to indicate product or any components present at greater than 0.1% may cause birth defects.
Germ cell mutagenicity:	No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.
Inhalation:	Upon prolonged and/or repeated exposure, can cause severe respiratory irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness.

Skin Contact:

Upon prolonged or repeated contact, can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage.

### **Component Toxicology Data:**

**Chemical Name** No data available CAS Number LD50/LC50

### Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No Data			
Available			

### **XII. ECOLOGICAL INFORMATION**

Overview:	This material is not expected to be harmful to the ecology.							
Mobility in Soil:	No Data /	Available						
Persistence:	Available							
Bioaccumulation:	Available							
Other adverse effects	Available							
Ecotoxicity Data								
Chemical Name	CAS N	lumber	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish

XIII. DISPOSAL CONSIDERAT	IONS							
Waste Description for Spent Product: Waste Description for Empty Packaging: Disposal Methods:		Spent or discarded material may be a hazardous waste. No Data Available						
		DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the sole responsibility of the waste generator. As your supplier, we have no control over the management practices or manufacturing processes of parties handling or using this material. The information presented here pertains only to the product when used as intended, according to this MSDS. For unused and uncontaminated product, the preferred options include sending to a licensed and permitted incinerator or other thermal destruction device. Various federal, state or provincial agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be covered in this MSDS. The
